CKY-EPEFCH BY WM. B. ALLEN,-On the 1 h vitimo, a large popular meeting was held at the Court-house, in Greensburg, of which m. B Alien was chairman, and Sam. A. Strucer was secretary. Strong resolutions are adopted, Indorsing the restoration policy the President, and Invoking all Union men Kentneky to sustain that policy in opposiion to the radical elements arrayed against it. lequent e; ecches were delivered by Wm. B. lien and John W. Lewis. The excellent speech of Mr. Allen, as follows, has been furnished us for publication, and we take pleasure in giving

a place in our columns. Bir. Allen said, in substance:

GENTLEMIN: I feel highly bonored in being called to preside at a meeting so intelligent and respectable, composed of gentlemen belonging to both prongs of the great national or Union party. Four years ego there were no prongs to this party; we were all for the "Union as it was said the Constitution as it is." We all as a unit were for curtaining the freest, the happlest, the wisest, and best government the world ever saw. As a unit were all for putting down one of the most wicked rebellions that ever cursed a nation, though it might be at the expense of much blood and treasure. We estemed the Union then, as did the great Henry Clar, when he said: "The Union first, the Union with the great Daniel Webster, when he said, "Union and liberty, now and forever, one and imparable." We hought then as was advised by the great Washington in his farewell address to the people of the United States, that "We hould from down the first dawing of any attempt to alierate any portion of our country con the said." A CONVENTION OF KENTUCKY REBEL OFFI

The Frankfort correspondent of the

etatement:

We learn to-day that there is a movement on foot among those who were officers in the rebel army, to hold a meeting in view of some expression of opinion with the view of showing their intention of becoming the good citizens shey were before the war. In justice to those who are from this section of the country, they have shown a desire to prove their sincerity by their endeavors to live a quiet, retired life that is very commendable. One or two have been disposed to figure to some extent in politic, but they have been promptly checked by these whose runk and influence will entitle them to at least rome respect for the manner in which they have need their influence. They do not make half the furs over the Constitutional Amendment and other measures that they stay-at home rebels do. Gen. Buford, of Woodford country, particularly, has been instrumental in bringing about this good result. THE SO-CALLED "DEMOCRATIC COMMITTEE The Louisville Courier of Monday makes a bold, carnest, and rather presumptuous deferse of the so-called "Democratic Central Committee. whose call for a State convention appeared in its columns some days ago. That committee be it remembered, consists of the following centlemen, viz: Dr. J. R Bachanan, Jefferson rown, Sam. Geiger, E. S. Craig, Norvin Green H. F. Kalfus, and O. H. Stratton, all of this city. With an air of importance, which would seris that these centlemen are "the true repre entatives of our proud old Commonwealth. and, in the course of its article, indulges in the following specimen of glorification:

From this position the true Democracy have been kept back by the violence and frand which have overspread our land like a black delunge the foul waves of which have not yet subsided Their reappearance was greatly needed. The faithful Central Committee, to which, in the darkest hours of our country, was confided the slogan that should rally the clane, have issued their call, and, like the invincible hoes of Rod-

their call, and, like the invincible hoets of Roderick Dhn, their champions will respond.

Never was any similar committee more trusted with the plenary anthority to act for the party in all things—to watch over the welfare of the Democracy, and to summon them to meet again, just when they might deem it expedient. It was not only a plenary authority that was bestowed by the Convention, but it was a sacred trust, which, when once accepted, could not have been abandoned or neglected without disbonor. There were a plenty of "conservatives" and "Union men" and "Union cenervatives" who might have been invited to do the thinking and exercise the authority of the Democratic party; but it was not in the tkeeping of such men that the standard of the party was placed to keep it furled until the proper time, and to unfur! It wherever the storm and darkness had passed, to permit its starry blazonry to be seen.

The history of this "Democratic Control." properly dyed in the wool, and then handed over for trial before a Military Commission. the transcendental committee, its friends, and

tarry blazonry to be seen.

The history of this 'Democratic Central Committee," and the political character of the titory permitting it cannot be "republican is gentlemen who compose it, must be borne in mind, in order that their title to the exalted prerogative of "true representatives" of this ommonwealth may be properly appreclated. The Committee originated in the public meet ing which assembled in this city in June, 1864 under the inspiration of ex-Gov. Wickliffe, which claimed to be a "Democratic Conven That meeting adopted resolutions strongly denunciatory, not only of certain measures of the Lincoln administration, but of the whole war for the Union, taking decided ground in favor of an immediate and unconditional peace, admitting the success of the rebellion. In other words the Convention practically favored a dissolution of the Union upon the terms of the rebels in a: me, and constituted these gentlemen a 'Centrol Committee" with power to call a subsequent Convention if necessary. They stood forth then, as they now do, in direct opposition to the "Union Democratic Central Committee" consisting of Hon. James Guthrie, George D. Prentice, R. Knott, George P. Doern, and Hamilton Pope), and upon an unequivocal anti-war, secession platform. Excepting Dr. Kalfus, who erved for a while in the Federal army, was discharged, and then prominently identified himself with the notorious Sons of Liberty, all of these socal e 'Democratic gentlemen were regarded here throughout the late war, as hostile to its prosecution and undisguisedly friendly to the rebei lior. The committee cannot claim to be originally Democratic, for four of its members, perhaps more, viz: Dr. Buchanan, Mr. Craig, r. Kalfue, and Mr. Stratton, were Bell and Everett men in 1860, and they predicate their present title to the name of "Democrat" upon the fact, that, after the war commenced, they

it seems, were charged with "a sacred trust," which they will not surrender. Says the What would have been thought of that com milite if they had seekingly abundanced their reast, currendered their office, broken the original reast, currendered their office, broken the original reast and abundanced the platform of 1864, currendered everything—principles, organization and all—to some Conservative camen, and indicated to the world by their own furtive chargearance that they considered the Demorrative Party visually dead in Kentucky, and indicate for some Conservative' cancus to addit it for some Conservative' cancus to adom its effects? cancus to ad-

neighbor, were "trusted with the plenary au-

thority to act for the party in all things-to

We would not have had the committee to alandon their "eacred trust" "sneakingly: they should have cone so openly and manfally just se their more illustrious leaders did upor the terud field. Just here the question occurs, D) es the Courier expect the Union Democrace of Kertucky to abandon their 'principles, orgen'z ti n, and all," and, setting aside the latterm of 1=64 as well as their Central Committee follow in the wake of each rebeilio 'Democrats" as Dr. Buchanan, Jeff Brown, and others? It so, It cherishes one of those "great expectations which are invariably dis-

We heartily sympathize now, as in 1864, with the true Democracy of the country. They constituted chiefly the conservative Union element in the loyal States during the war, and our position on the questions now before the nation is in perfect harmony with them. But, while we co-operate with that party in opposition to every species of radicalism, yet, in common, we believe, with all Union men in Kentucky, we are unwilling to strike our old colors and so far forget the past as to follow in the wake of a "Central Committee" composed exclu sively of rebel "Democrats." We are unwilling to accept these gentlemen as our leaders, cor fident, as we are, that, in doing so, the Union men of the State would be sacrificed. Is it too much to invoke the secessionists in the midst of us to give up the scheme of a separate organi zation, and identify themselves with the Union men of Kentucky? It seems to us that the ionists have done enough for that class of men to entitle them to their co-operation and

Most of the winnesses have told this full tale of their husiness, but one or two, probably unwilling to discrete, were sent to prison on account of their refusal to testify.

One of the largest stockholders in this enterprise was the Hon. 6. A. In the course of this examination, which took place on the 16th ult., Mr. Trenholm stated that just before the evecuation of Richmond the total amount of specie in the Confederate vaults was from \$500,000 was a carried off and distributed, \$000 000 was carried off and distributed, partly among the soldiers of Johnston's army and partly among the foldiers of Johnston's army and partly amon party among the soldiers of Johnston's army and party among the military, secort of Jeff Davis, at the time of their disbandment. The World's Washington special says It is stated that our Government has arrived at an understanding with the French Government, and that to all intents and purposes the difficulty between them is settled. The French are shout to leave Mexico, and the United States Government has walved any intention to enforce the Monroe doctrine. There will probably he no recognition of Mexico, but there is a piedge expressed or implied that the Enited States will take no overt measure to depose Maximilian and put Juarez or any one else in his place; while it is not likely that formal diplomatic relations will be opened with the empire. A quasi recognition will result from the present understanding; that is, Consuls will be appointed and employed in their proper positions of protecting American trade in Mexico. It is not likely that the French will leave Mexico hefore the close of the year, and, while they are going, their place will be supplied by Anetrians, Belgians, and such Mexicans as accept the empire.

FASHIUNS FOR FEBRUARY. — Madame Domoresteans factions are very diversified this season. We don't remember when so much latitude was allowed to taste and fancy. Everything seems to be wern, possibly because the enermous prices make people glid to buy any thirg that is wearable. There is a great demond, however, for rich goods and coeffy ornaments, and if high fostion is a little more exclusive, it is still to be found in the fullest possible feature in the circles of the "best" society.

'Empire' siyles, so-called, are still in the ascritant—gored diesses, square bodices, tunics
cored, high trizzed head dresses, high-heeled
shees, and hooped skirts very narrow at the
top, end very wide at the bottom.

Closks have lengthened with the cold weathre, intetill hold the half-fitting paletot shape.
We notice, however, quite a revival of the circular clask worn fiften years ago, and consisting of two or three circular capes. A double
cape of this description is a pretty garment for
spring, and appropriate for spring sults. It will
indoubtedly be a favorable style.

It is a great disadvantage that this material, good and serviceable as it is, is so high. In England it is sold for one and sixper ee and two ellilings per yard; here we have to pay nine shillings and a dollar and a half. For the French silk and wool liney, sold abroad for three shill. Ings, we pay two dollars and two fifty—prices which put it onto the teach of a large class of ladies, who would prize it most highly as an erduring and well-looking material.

In Paris liney has become the fashion; the En press lenself wears it; and her example is followed by the highest ladies in the land.

Here, however, tinsey is too costly for common wear, and not elegant enough for dressy considers; it is therefore only worn by those who have learned that it will only decreased the first of the standard degent steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and elegant steamer is the evening packet for Cincinnati and evening and two control of the each of the first packet of the French of Fre
